Professionals in Sustainable Development

## ENHANCING DEVELOPMENT

NSCE is committed to improving the quality of life and economic welfare of people and communities throughout the Middle East, North and Sub-Saharan Africa. Our efforts center on providing a range of professional services to help governmental and international bodies succeeded in achieving their public policy and developmental objectives. From education to preservation of culture and heritage, from housing to early childhood development from micro finance and small enterprise scale-up business to the appropriate use of natural resources, NSCE addresses pressing issues that affect people's quality of life and meet the needs of marginalized communities in the regional sphere.

## A SOURCE OF EXPERIENCE

NSCE experience in developmental projects encompass environmental, cultural, financial, gender, early childhood development, SMEs diagnosis and management, credit facilities, and training. Dedication to innovative applied research and technical assistance relying on a strong information exchange, high caliber consultants database, and abreast of the latest software and hardware technology assure the quality of every project NSCE undertakes. NSCE provides a variety of services including:

- Community participation and development
- Integrated rural development
- Vocational training
- Formal and informal education
- Education reform
- Drinking water and sanitation
- Farming systems
